

Satellite radio provides variety and quality that are not available elsewhere. We travel all over the U.S. and appreciate the quality and service we receive from XM Satellite radio. We pay for these services and it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear. Respectfully, we urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve.
